New Open Access policy launched June 2012

” The grant holder is - **if the magazine allows it** - requested to parallel-publish a digital version of the final, peer-reviewed scientific article which has been accepted by a scientific magazine.”

(www.fi.dk)

Minimum requirements from the research councils and foundations

- * The published version of the paper should be the "post-print version" i.e. the peer-reviewed, accepted version
- * The paper must be parallel-published in an institutional or subject-specific repository, i.e. a digital archive (PURE)
- * The publication may take place after an embargo period of 6 months – if requested by the magazine

Journal policies are listed in the RoMEO database <http://www.sherpa.ac.uk/romeo/>

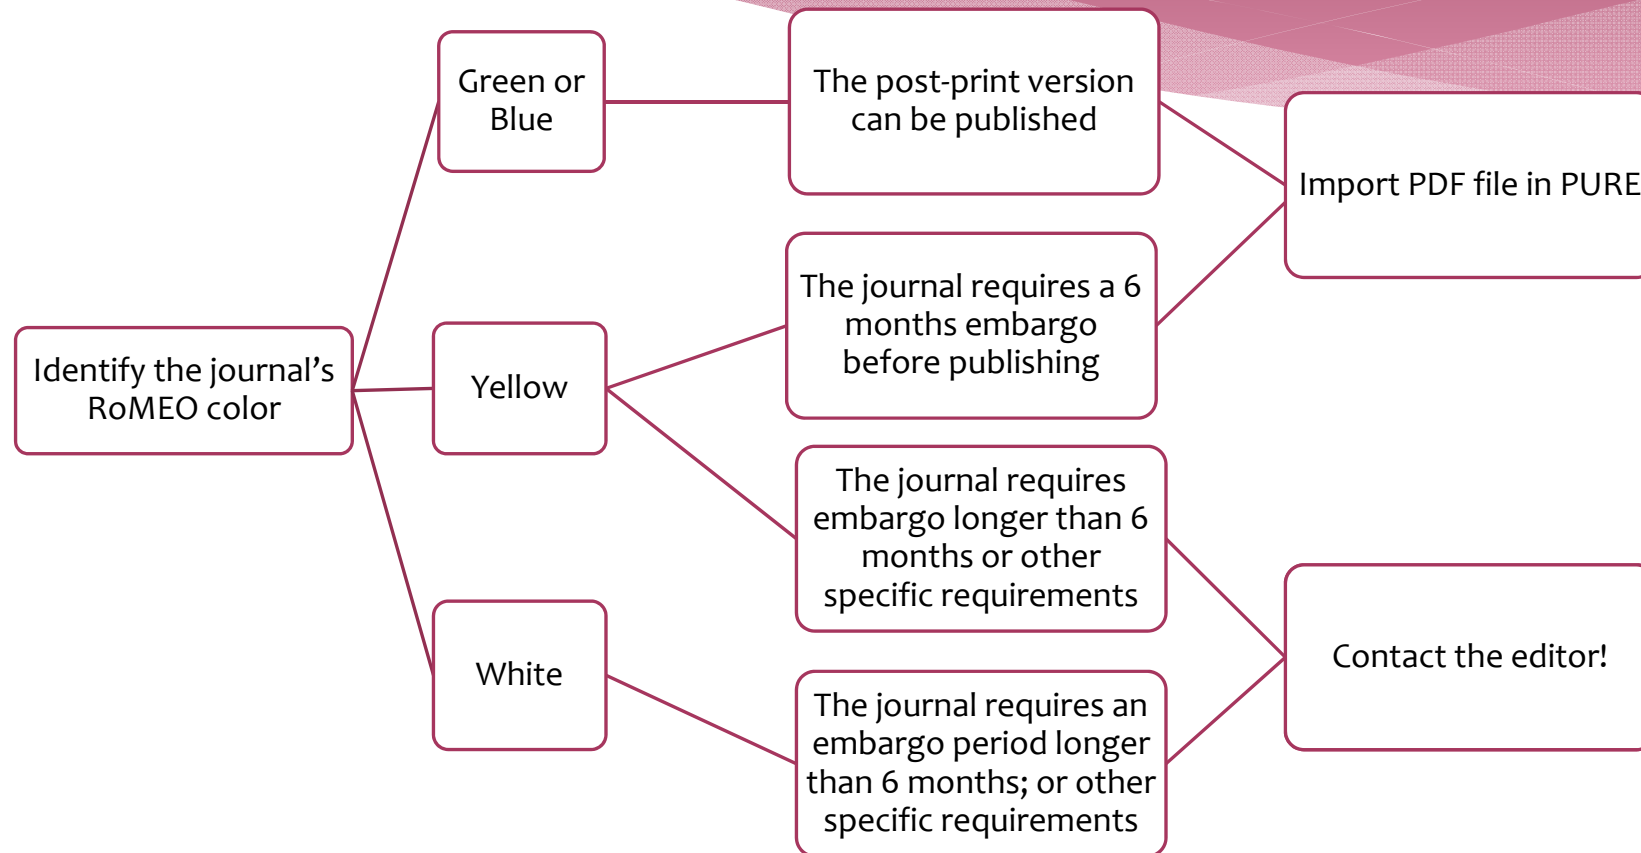

RoMEO Colour	Archiving policy
Green	Can archive pre-print <i>and</i> post-print or publisher's version/PDF
Blue	Can archive post-print (ie final draft post-refereeing) or publisher's version/PDF
Yellow	Can archive pre-print (ie pre-refereeing)
White	Archiving not formally supported

- * Journals are labeled with their RoMEO color in PURE
- * Most frequently used journals at this department are listed with RoMEO color here:
