

Biophysics workshop - November 8th:

Lecture:

” Biophysical characterization and quality control of integral membrane proteins and protein complexes”

By Maria Garcia Alai

Head of the Sample Preparation and Characterization Facility
EMBL Hamburg

Venue: MBG auditorium (1871-120)

Time: from 13:00

Hands-on workshop:

”eSPC - an online data analysis platform for molecular biophysics”

By Osvaldo Burastero

ARISE Postdoctoral fellow
EMBL Hamburg

Venue: Meeting room (1872-447)

Time: 10:00-12:00

eSPC is an easy-to-use software package for many of the instruments in the biophysics core facility including **nanoDSF**, **mass photometry**, **dynamic light scattering (DLS)** and **microscale thermophoresis (MST)**. Bring your own laptop and data.

Register for the workshop by **contacting Magnus Kjærgaard** (magnus@mbg.au.dk)
